

What's Included?

1. Free in-person and online trainings for students, teachers, and administrators.
2. Easy to navigate matrixes on topic-specific webpages for students and for educators.
3. Curated list of relevant materials and agencies.
4. Relevant state and federal agency contact information.

What do our participants say?

“Overall the courses are very informative and I would administer these each year with my class.”
-Teacher

“What I liked about the course is that it gave me information and videos to comprehend the material/information given.”
-Student

“I liked the simplicity of presentations. I have special needs students and I can visualize them completing it on their own.”
-Teacher

Thanks to our Funders and Collaborators!

- NJDOE, Office of Career Readiness
- NJ Department of Labor and Workforce Development (WHD, PEOSH Program)
- U.S. Department of Labor (WHD, OSHA)
- Rutgers School of Public Health

New Jersey's Adolescent Occupational Safety and Health Toolkit

Trainings and educational materials made available to assist schools in reducing risk to occupational safety and health hazards in secondary schools and work microenvironments in which NJ adolescents spend time.

Goals of this Toolkit

For Students

- Better prepare adolescents to enter the workforce.
- Provide materials, resources & knowledge to empower new workers to self-advocate.
- Engage students in occupational safety and health using courses and interactive materials.
- Each course completed will receive a signed certificate.

For Teachers and Supervisors

- Provide teaching and educational resources.
- Provide easy to follow and administer online courses. Each course completed will receive a signed certificate and professional development units (PDUs).

Why is adolescent occupational safety & health important?

Young workers (ages 15-24) get injured on the job more than any other age group!

Free Trainings for Students

Cosmetology Safety & Health Workshop (in-person or online)

Cyber Safety and Security Course

New & Young Workers Course on Wage and Labor Laws

Career Cluster Specific Personal Protective Equipment Training

Free Trainings for Teachers (for PDUs)

4 PDUs

- Teachers Promoting Safety & Health for Students with Special Health Care Needs

3 PDUs

- Career Cluster Specific Personal Protective Equipment Training

If you are interested in enrolling or having your students enroll in any of the courses above, please contact us at CSCBRE@sph.rutgers.edu.

Resources for Students & Teachers

Our courses and resources are supported by state and federal organizations and years of research by NJSS and our many collaborators. On our website you will find additional resources, information, and websites. Some of which are highlighted below.

To explore our additional resources please refer to the following pages on our website www.njsafeschools.org.
